

Zeeshan - Characteristics of Effective Learning

Zeeshan has grown considerably in confidence and independence. He now takes part in all experiences and is developing a real 'can do' attitude to his learning. Zeeshan is now very talkative but needs adult support to stay at an activity and prompting to explain what he is doing. Zeeshan has made some interesting observations about the world around him using the language he has newly acquired and delights in sharing information about his home life.

Zeeshan has started to be a real 'investigator' and prefers to learn in the outside area. He works well with his peers and has shown some signs of taking the lead in a group to explore and look for minibeasts.
